Other image delivery system currently in use, if any: _____**

Please ask us to provide you with a quote for your annual access fee, if applicable, and
write it here: **__FREE with receipt of PO for quote # _____**

:: Definitions

1) Hosted Access is defined as access to Archivision, Inc. images that have been
licensed in perpetuity and paid for by an institution and where a signed Archivision Site
License is on file with Archivision. Access is provided to the Archivision Library in Library
Modules only (Base Collection plus sequential Addition Modules that have been licensed).

*Note: Hosted Access is a service for Archivision clients and differs from a typical
subscription because the images have been licensed and paid for in perpetuity by the
institution. Subscription Access is defined as annual access to Archivision images for
institutions that have NOT licensed the images in perpetuity. Subscription Access
information is not addressed in this document.*

2) Service Provider is defined as any sanctioned commercial entity that provides access
to licensed Archivision content via Archivision Library Modules on their own server as a
service to clients of Archivision. The Service Provider may charge a set-up fee and may
charge for annual access as per the Hosted Access Fee Schedule posted on the Archivision
website at the URL given above.

The Service Provider may also produce incentives where you license or have licensed a substantial product or service to keep your access free, as per the terms of your Service Provider stated below in this agreement. There are currently two sanctioned Archivision Library Module Service Providers: 1) Archivision Inc. 2) Luna Imaging, Inc.

.: Common details :.

MDID
Sign up for hosted service at any time
The service will be "turned on" within 3 to 15 working days of receipt of your set-up fee (if charged), annual access charges (where applicable) and this signed Hosted Access Agreement, unless you are notified otherwise as per mutual agreement.

Annual access fees
Any annual access fees paid covers the date from when your service was "turned on" until one calendar year has passed from that date (365 days) and subsequent 365 day terms for which you have requested and paid for access. All access fees will be quoted and billed by your chosen Service Provider, namely vrcHost, 60 days prior to the end of your 365 day cycle, and will renew automatically for successive 365 day terms, provided that the annual hosted service fees are paid and no notice of change of terms is given by the Service Provider or you. All annual hosted service fees are subject to change with notice on your renewal invoice date.

If your access service is terminated you may re-sign up at any time
You may at any time re-sign up for any Hosted Access Service currently available. You may need to pay the current set-up fee per campus for each new start request and any access charges that may apply from your new Service Provider.

Receive the content locally at any time
You may elect to take the Archivision Library modules you have licensed home AT ANY TIME – however, the hosting set-up fee and access fees charged (if applicable) are nonrefundable. Should you wish to transfer the Archivision Digital Library modules you have licensed to your server please contact Archivision at contact@archivision.com and ask them to send you the metadata and all the derivative files on a drive; there is currently a shipping fee of $125 and you may keep the drive.

Please Note: While every precaution has been made to avoid service interruption Archivision Inc. and vrcHost are not responsible nor liable in any manner for any interruption in access to your Archivision Library, or further content you have access to, for your institution. Furthermore, Archivision and vrcHost Inc. are not liable in any manner for personal content which you upload onto the servers and we reserve the right to remove inappropriate material at our sole discretion. Should we need to terminate the Hosted Service Access for access to Archivision content you have licensed, for any reason, Archivision will, as per your request,
1) offer you a hosted service with another Service Provider you choose (if available) where we transfer remaining credit for access fees paid to the new provider reducing your cost (if any and if possible) accordingly or 2) Archivision will offer to provide you with updated images and metadata on a hard drive, for a service and per terms stated above, so you can load and host on your server or choose another third party service.

Keeping it Current
From time to time as you license new Archivision Library Modules vrcHost will turn on your new content. We will attach the invoice to this agreement and you should do the same to keep it up to date. No further changes are needed to this agreement.

<p style="text-align:center;color:red;font-weight:bold;">:: THE ARCHIVISION MDID3 SERVICE with vrcHost – DETAILS ::</p>

Note: MDID3 is open source, there is no software license required to use this service (no back-end license required with unlimited use by your institution). You may bring the MDID installation home and run it on your own server upon request and as per arrangements made with vrcHost.

SERVICE IS IN MDID3
Download access is to the full 18 – 70 MB JPEG files (3,100 – 6,000 pixels long side) and derivatives as per the Archivision Library modules your institution has licensed including the full metadata for those images. Authentication is via a range of public IP addresses with remote access via a proxy/vpn server, both managed by your institution.

WE OFFER FREE ACCESS TO YOUR ARCHIVISION MODULES IN MDID with the license (purchase) of our annual module(s) as per a quote we supplied. The free MDID3 hosted access is vrcHost's BASIC PLAN. You may upgrade to their EXTENDED PLAN. For details please visit:

http://www.vrchost.com/services/hosting/

Or contact Andreas Knab at info@vrcHost.com

Support Options: Free support about MDID is available by joining the MDID user group support listserv here: https://listserv.jmu.edu/cgi-bin/wa?A0=MDID.

With receipt of a PO for your next module(s) license access will remain FREE in MDID. The fee quoted here for the annual Archivision architecture module of 6000 images PLUS the new annual art only module of 3000 images is: $3000 CND. Should you not be able to license the next annual module(s) you may contract directly with vrcHost for continued hosting of your Archivision content and the current fee is: $252 USD per year at info@vrcHost.com

This Hosted Access Service Agreement is made this _____ day of
_____, 2018
IN WITNESS WHEREOF, the parties, Archivision Inc. and your institution, namely
_____ have caused this Agreement to be executed by their
duly authorized representatives as of the date written above. The agreement will become
active upon receipt of our counter signed copy and payment of any fees that apply. Access
will commence the day service is "turned on" and ARCHIVISION will notify your contacts
by email that day. Once signed this agreement should be attached to your Archivision Site
License Agreement. Please ensure that they are attached in your file.
